

# Lite wallet installation guide

## Requirements:

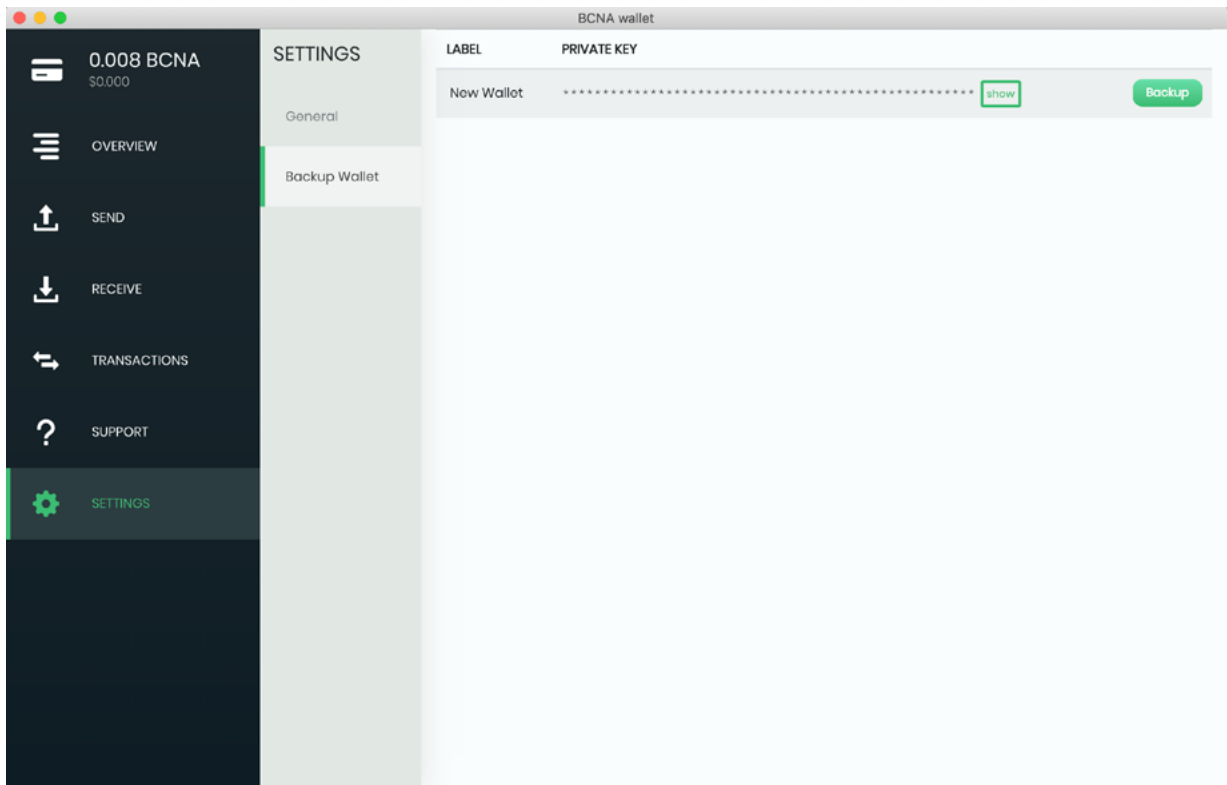

- Windows - 64bit / MacOs operating system
- Min. 1 GB of free disk space
- **Step 1:** Download the Lite Wallet from our website at <https://www.bitcanna.io/> make sure to select the version supported by your operating system.
- **Step 2:** Launch the Lite Wallet executable which you've just downloaded.
- **Step 3:** Click on "Create New". You can label your wallet to categorize them, this would come in handy if you wish to create multiple wallets. Next, create a password that contains the following:
  - *At least 8 characters long*
  - *At least 1 uppercase character (A-Z)*
  - *At least 1 digit (0-9)*
  - *At least 1 special character (~!@#\$%^&\*()\_-=+[]{};:'" \ | < > . / ?)*
- **Make sure to write this password down and store it somewhere safely, by losing this password you will lose access to your wallet and your funds within.**

- **Step 4:** You're now logged in to your wallet. Click on "**Settings**" in the bottom left corner of your wallet.

Next, click "**Backup Wallet**". Now, click "**Backup**" in the top right corner. **Save the file** (lightwallet.json) to make a backup of your wallet and store it somewhere safely other than your pc, such as an USB stick or your laptop.

*The lightwallet.json file together with your password, will allow you to access your wallet on another computer.*
